ABOUT ME

I am a frontend developer who enjoys making websites that look good and work well on all devices. I like learning new tools and technologies to improve my skills. My goal is to build websites that are easy to use and give a smooth experience to users. I'm also interested in learning more about JavaScript frameworks and finding ways to make websites load faster and work better.

SKILLS

- HTML
- CSS
- JavaScript
- ExpressJs
- Git & GitHub
- ReactJs
- C++
- MongoDB

EDUCATION

Bachelor of Technology in Computer Science and Engineering 2022 - 2026

Global Group of Institutes, Amritsar

R.B.G.R Collage, Siwan - Bihar

2020 - 2022

Percentage 56

Secondary School Education

Uma Shankar High School, Siwan - Bihar

2019 - 2020

Percentage 79.2

EXPERIENCE

91CoderStreet - Full Stack Development

91CoderStreet.com

Was part of a 25 people batch for Full Stack Training involving MongoDB, Express, React and NodeJS. We built a project on Todo App while understanding all the web development techniques.

PROJECTS

Todo App – Full Stack Project | <https://todo-ugwc.vercel.app>

Built during training at 91CoderStreet using React. Implemented add, delete, and update task features with full CRUD functionality.

Online Car Showroom Website | <https://lara-car-r3qg.vercel.app>

Built a responsive car showroom web app using HTML, CSS, JavaScript, and MongoDB. Users can browse cars, view details, and submit inquiries. The site features dynamic UI and backend integration for storing and managing car data.

QuickSign – PDF Signing Web App | <https://quicksign3.netlify.app/>

Developed a MERN stack web application that allows users to securely upload PDF files, draw digital signatures, and download signed documents. Integrated Google OAuth for authentication and used react-pdf & signature canvas for smooth document handling.

INTERESTS

- Automation
